

MIO RADIATOR

Fantasy and imagination together with experience create design that goes beyond the conventional; handmade products realized with passion and craftsmanship.

Classic or modern, the design is shaped; rustic, vintage, contemporary or ethnic, loft or industrial, the shapes of 'mio' Radiator find space in every room.

CE certification and technical details in the attached document.

FUORI SCHEMA RADIATOR

'Fuori schema' radiator is the more basic among all the bathroom radiators; alternative and unconventional, it finds in this design new spaces and new contexts.

CE certification and technical details in the attached document.

LE GRAND RADIATOR

This model is a natural evolution of the 'MIO' model, suitable for all the environments where space is supreme.

CE certification and technical details in the attached document.

SI-BO RADIATOR

After the realization of the radiant masses, this model was realized using square tube with cavity and the result is a design of absolute originality in which shapes and dimensions are placed in large spaces.
